Juan De la Torre
Computer Science Engineer

I am a 21-year-old Computer Science Engineer, who's currently a student at CETYS University. I have acquired many skills and knowledge while studying at my university. I am also expanding my skills by practicing and learning in many extra courses I am taking. I hope to grow even more with this company to acquire experience and provide innovative ideas for different projects.

Skills

- Proficient in programming languages: Python, C++, JavaScript
- DataBase Management System with MySQL
- Web Programming: HTML5, CSS3, JavaScript
- Knowledge in Object-Oriented Programming in Python
- Strong Analytical abilities
- Experience with version control systems such as Git
- Able to adapt and to complete tasks given

Notable Projects

- 24-Hour Project in making a website with multiple features
- Database Project simulating a AutoZone's database
- 3-D modeling simulating a Human Eye with multiple functions
- Have created multiple Web Responsive Designs such as: a coffee menu, registration form, building a quiz, and much more

On-going learning

- Currently learning and improving my overall skills as a programmer
- On-going learning course to obtain JavaScript Intermediate certificate
- Continue to gain more skills and certifications such as Information Security, Machine Learning, Front and Back End, and many more in the future
